Approaches and Tools for Teaching through
the Medium of English in order to improve
Educational Yield, Sustainability and
Internationalization (SMARTI)**

March 30-April 1, 2021

DR. ALLA ALEKSANYAN

Armenian National Agrarian University is the only higher educational institution in Armenia that trains and prepares specialists for agrarian sphere accredited by **National Centre for Professional Education Quality Assurance Foundation (Armenia)**

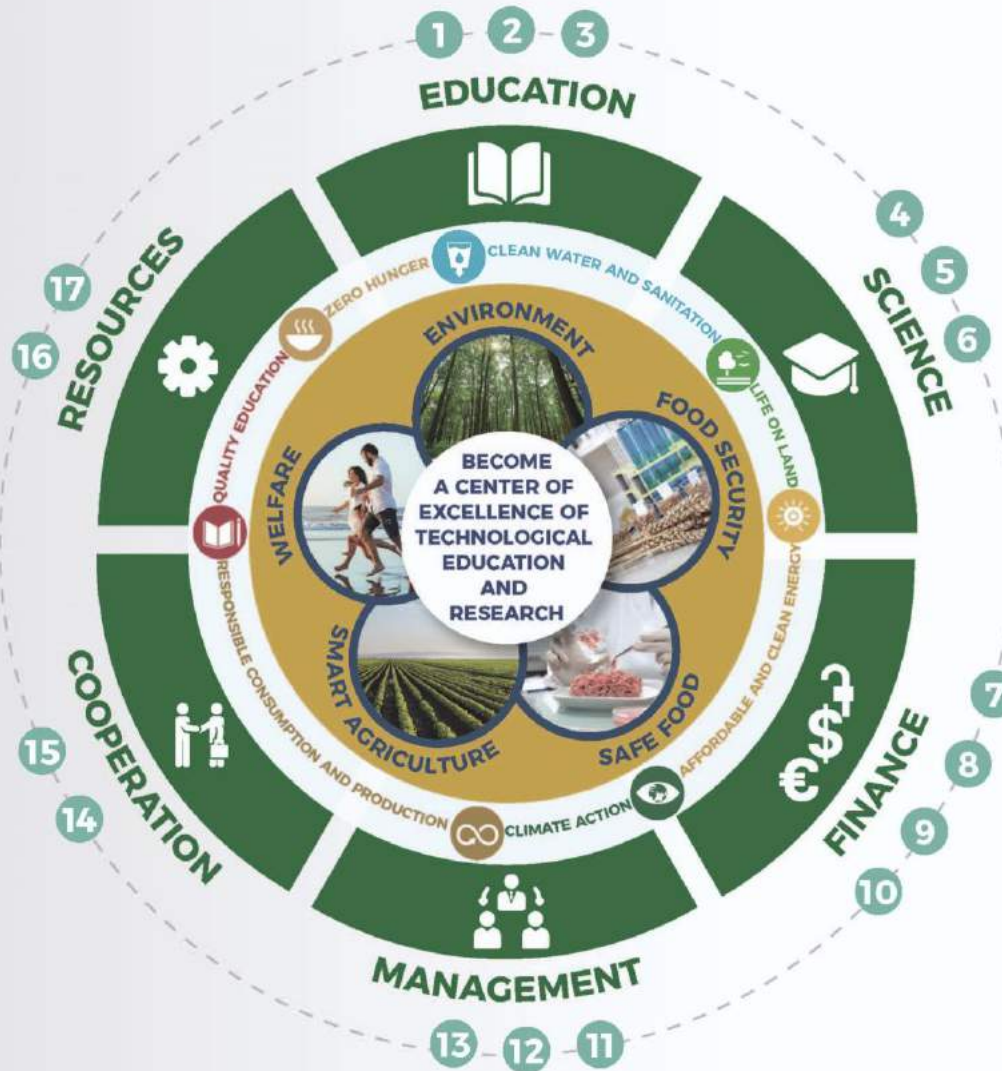

Mission and Vision of the University

- Our mission is to prepare agrotechnology specialists capable to develop the food and agriculture system in the country with the help of their professional skills and through cooperation with the sector's stakeholders. The University will promote its research potential, offering best solutions for progress and will introduce up-to-date technologies, using and demonstrating the results of a knowledge-based economy.
- The vision of the University is to become an agritech academic and research excellence center guided by creativity and innovations, promoting the harmonious collaboration between the agricultural education, research, extension and industry.

UN SUSTAINABLE DEVELOPMENT GOALS (SDG)
